HUMAN EVOLUTION 101

**Australopithecus
afarensis**

Homo habilis

Homo erectus

**Homo
neanderthalensis**

**Homo
sapiens**

4 million years ago
ape + human
'Lucy' - a symbol of early
bipedalism

2.5 million year ago
'handyman'
associated with stone tools

1.5 million years ago
controlled fire too
hunter-gatherer

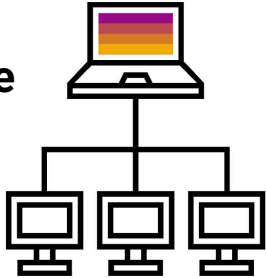

400,000 years ago
created art, "intelligent"

300,000 years ago
created language, culture,
transformed landscape,
built community

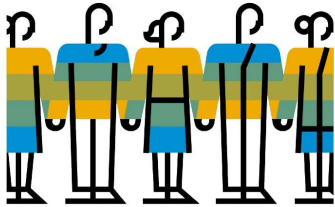

**Homo sapiens, our
species, split off
from its ancestors
400,000 years
earlier than
previously thought
– and possibly in
Asia, not Africa**

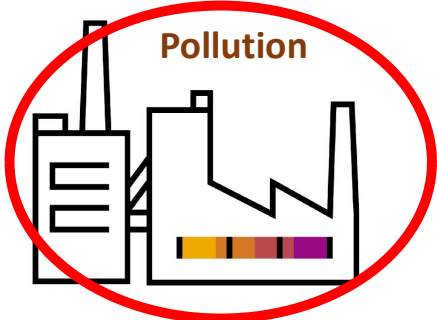

We are the product of billions of years of life's relentless creativity. People found purpose in work, settled into cities, built industries, and formed civilizations.

Computerisation

Teamwork

Industries

Writing was invented, computerisation introduced and with it, history and (r)evolution began.

SIXTH MASS EXTINCTION

The sixth mass extinction event refers to the ongoing, human-driven loss of species occurring at an accelerated rate compared to natural extinction processes. Factors such as deforestation, climate change, pollution, overexploitation, and invasive species contribute to the decline of biodiversity worldwide. Scientists estimate that species are disappearing at a rate 1,000 times faster than normal. This event threatens ecosystems, disrupts ecological balance, and impacts human survival, making conservation efforts critical to preserving Earth's biodiversity and ecological stability.

WHAT ABOUT HUMANS?

The TRANSHUMANS

TRANS- HUMANISM

THE NEXT STEP OF
HUMAN EVOLUTION?

AI Singularity

Singularity refers to a future point in time where **artificial intelligence (AI)** could potentially surpass human intelligence. This occurrence would arise from the exponential self-improvement of AI, leading to an unpredictable and rapid change in the technological landscape.

Humanize AI Content the Smart Way

Don't get flagged - make your writing sound real. Humanize AI-generated text so it reads naturally and stays true to your voice.

100% Your text seems to be human-written.

It will offer resources, educational programs, and community events tailored to people of all ages and backgrounds.

Frequently Asked Questions

∨ What is AI Humanizer?

AI humanizer is the advanced tool that rewrites machine-generated content so it reads like natural human writing. It helps humanize AI text by changing rhythm, tone, word choice, and sentence flow while keeping the original meaning unchanged.

∨ What types of content can I humanize with AI?

AI can humanize any text that sounds robotic. Use JustDone AI Humanizer for essays, emails, long articles, short sentences, or any text produced by AI tools like ChatGPT or Gemini. If your content is AI-generated, the Humanizer rewrites it to feel natural and authentic with just one click.

∨ Can I humanize AI content for better readability?

Yes. AI-generated text often sounds robotic and is hard to read, with awkward wording and formal structures. The JustDone Humanizer removes AI patterns and rewrites sentences, making your text clear and easy to read and understand — in any language.

10 Dec 2025

Social media age restrictions

The Australian Government is warning young Australians at a critical stage of their development, through social media age restrictions.

From 10 December 2025, age-restricted social media platforms will have to take reasonable steps to prevent young people under 16 from creating or keeping an account.

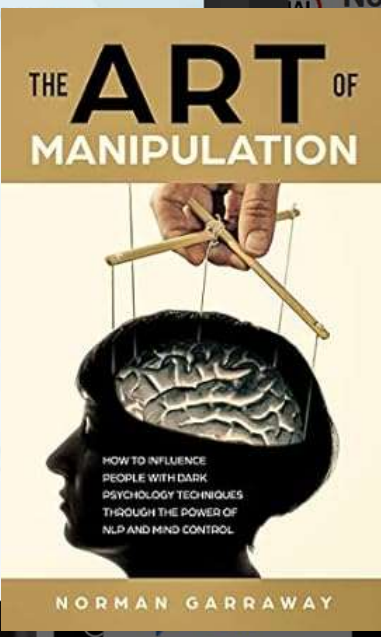

The restrictions aim to protect young people from risks that users can be exposed to on social media accounts. These come from devices used on screens, while using social media.

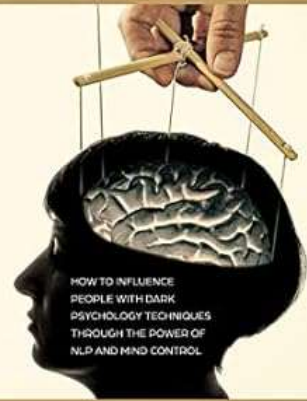

Removing access to Instagram, Threads and Facebook for under 16s in Australia

Meta Policy ANZ | 3 min read · 13 hours ago

To comply with Australia's upcoming social media age ban law, starting 4 December, we will begin removing access to Instagram, Threads, and Facebook for teens under 16, and will block the creation of accounts for under-16 teens. We will start notifying you about this change as an opportunity to...

HUMAN
REVOLUTION

The essence of the creative life,
however, is not to give up in the face
of defeat but to **follow the rainbow
that exists within your heart.**

— *Daisaku Ikeda*

AZ QUOTES

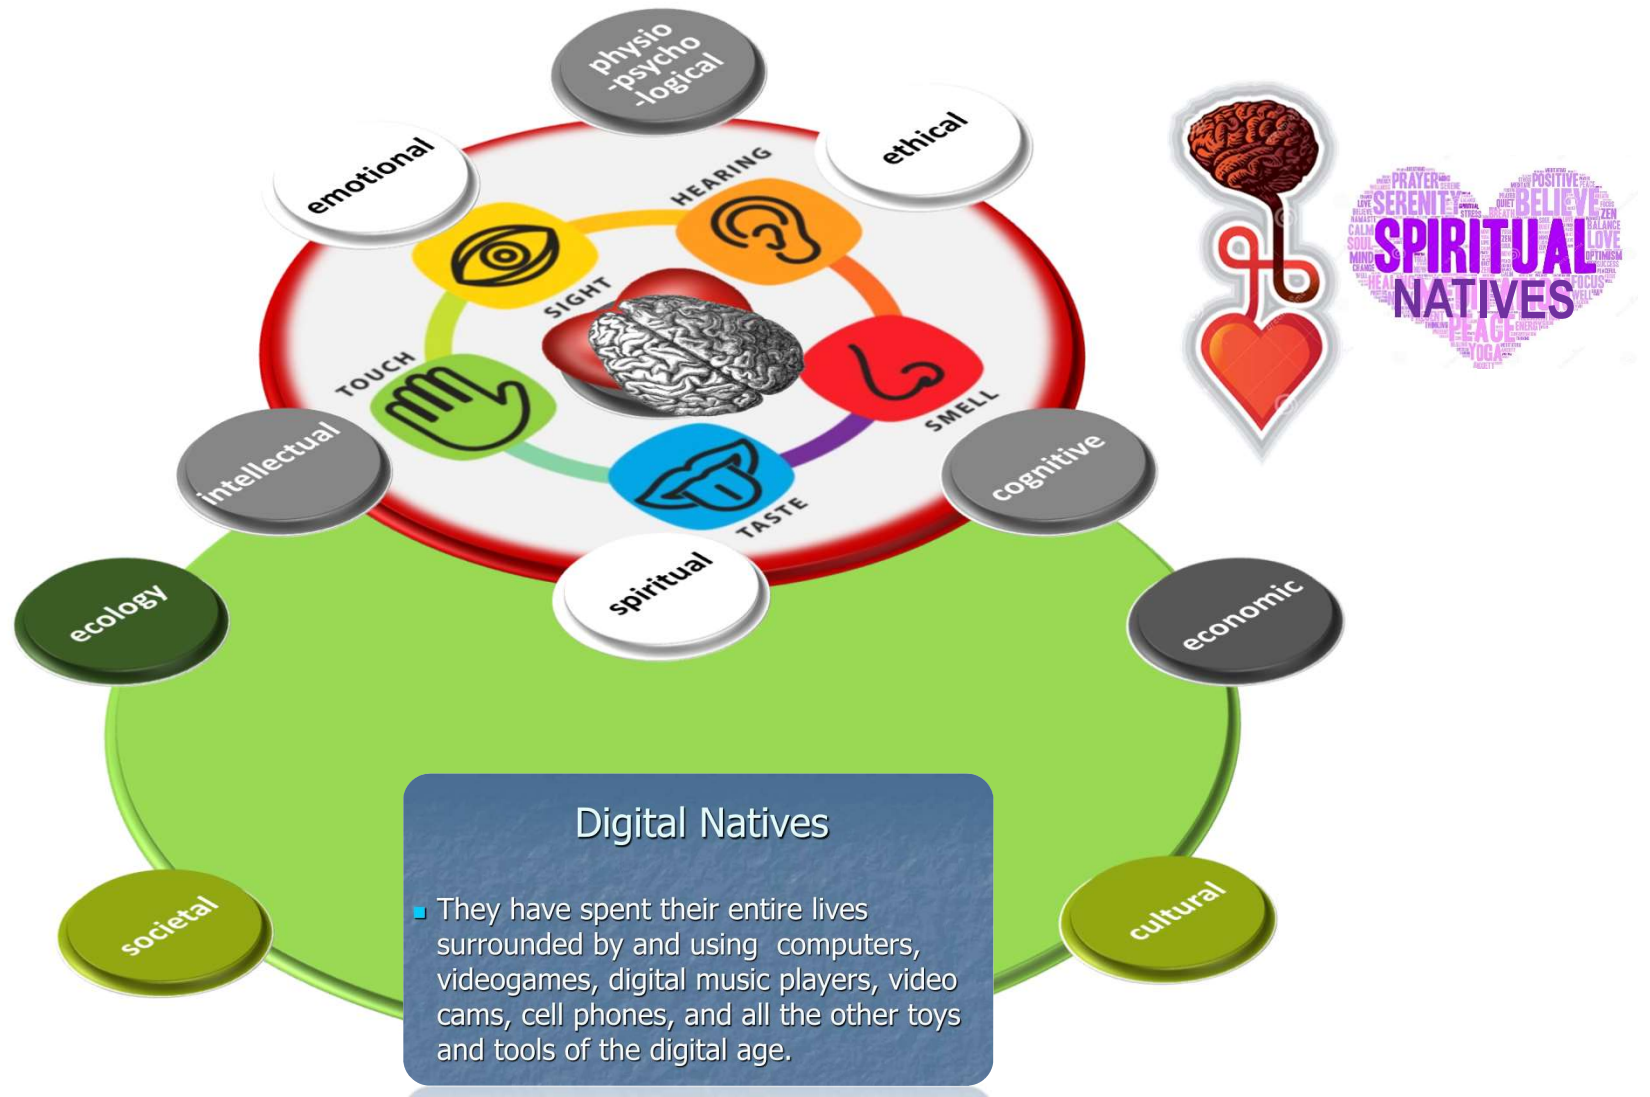

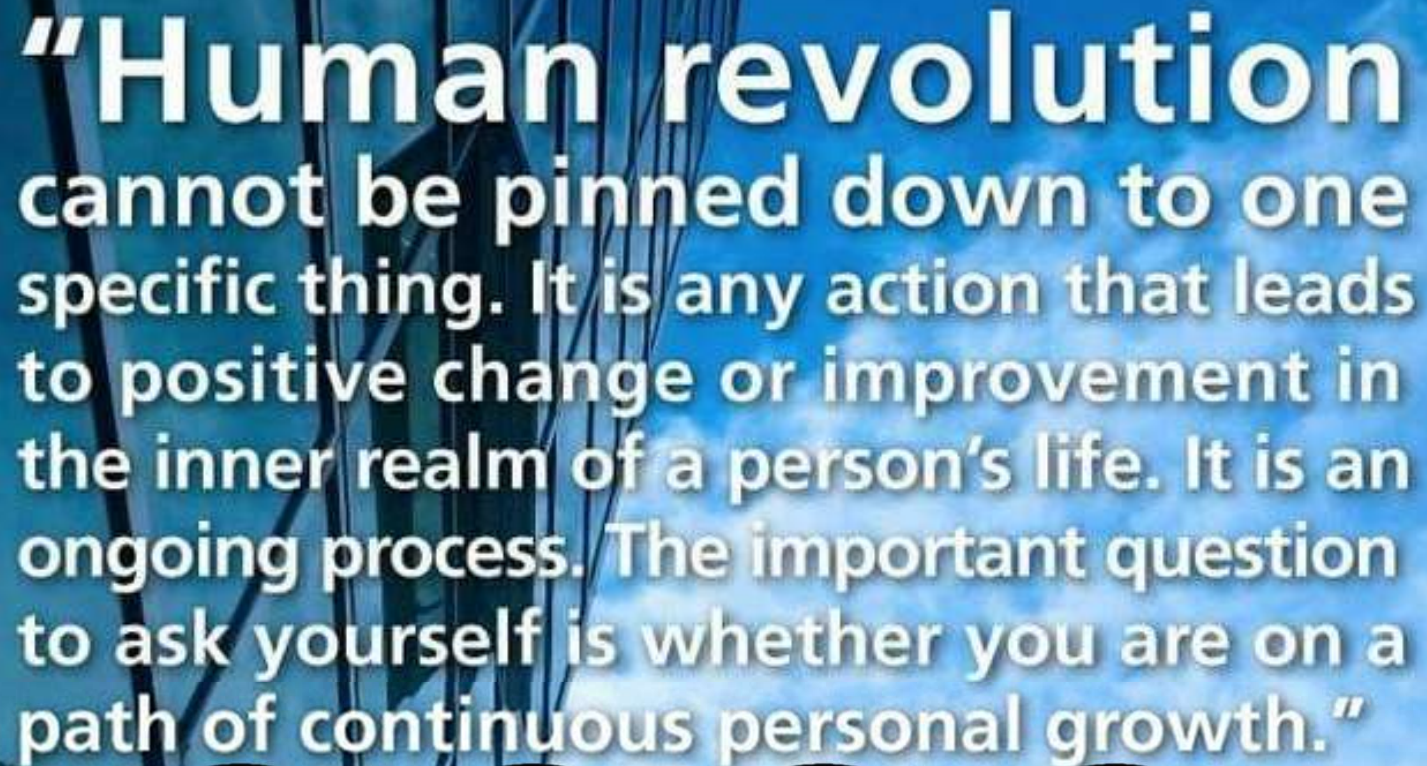

Humanity has experienced many revolutionary changes over the course of history: revolutions in agriculture, in science, industrial production, as well as numerous political revolutions. But these have all been limited to the external aspects of our individual and collective lives.

Daisaku Ikeda

“ quote fancy

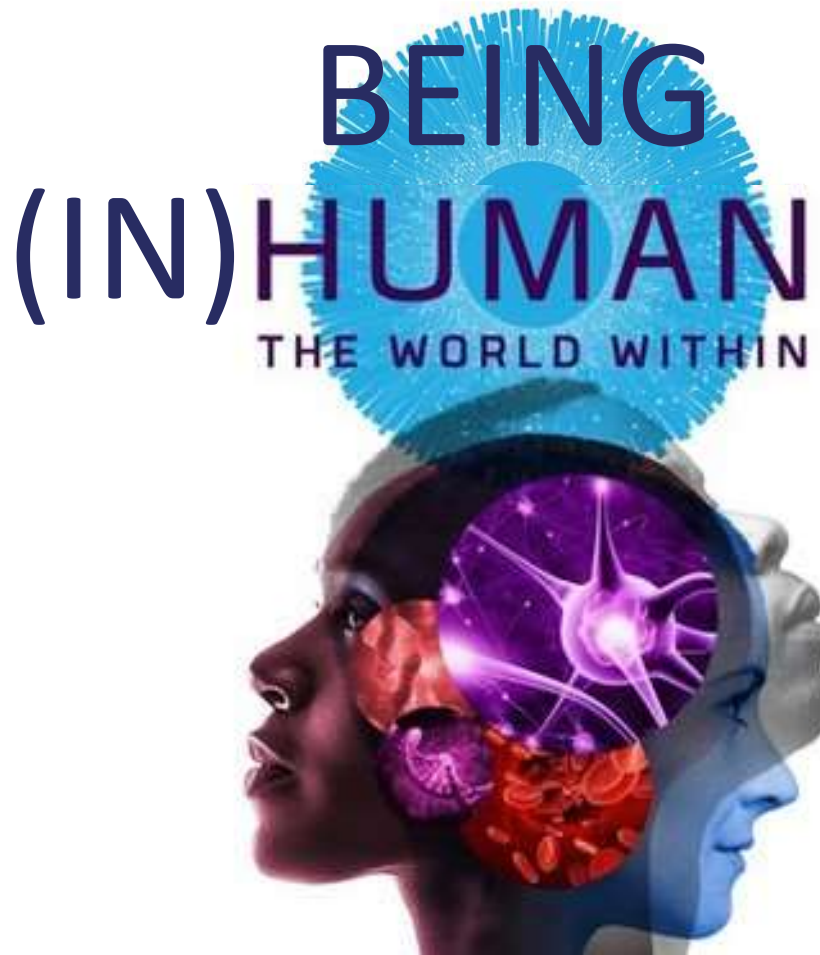

5th Human Revolution for *Sejahtera*

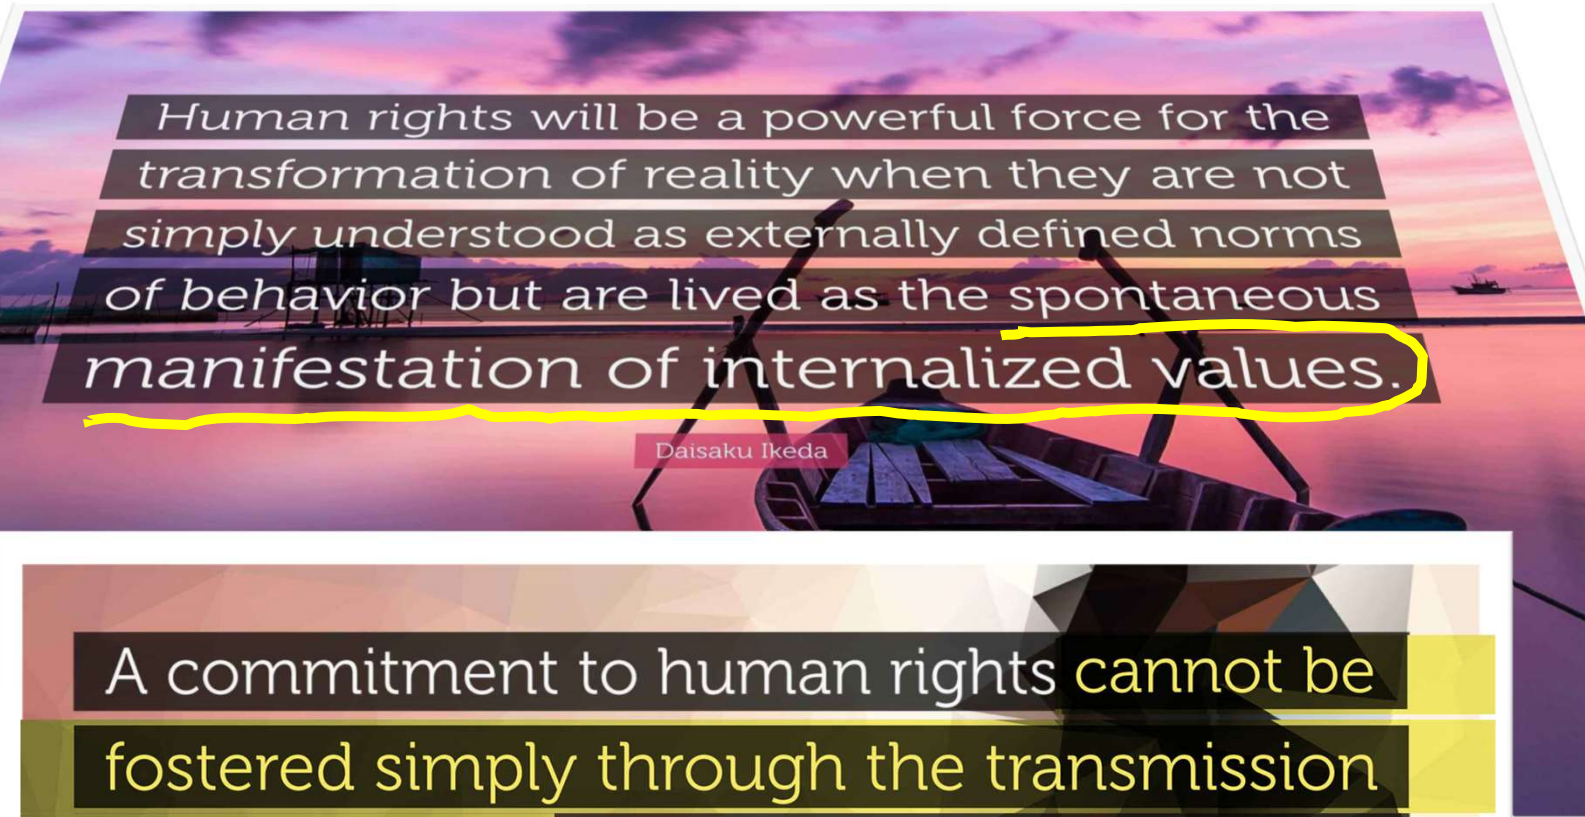

“Human revolution cannot be pinned down to one specific thing. It is any action that leads to positive change or improvement in the inner realm of a person’s life. It is an ongoing process. The important question to ask yourself is whether you are on a path of continuous personal growth.”

-Daisaku Ikeda

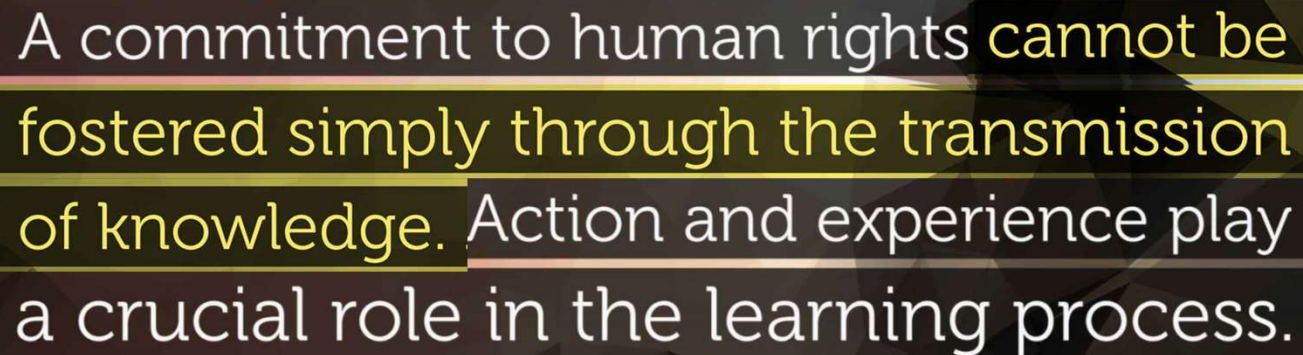

Human Revolution for *Sejahtera*

Human rights will be a powerful force for the transformation of reality when they are not simply understood as externally defined norms of behavior but are lived as the spontaneous manifestation of internalized values.

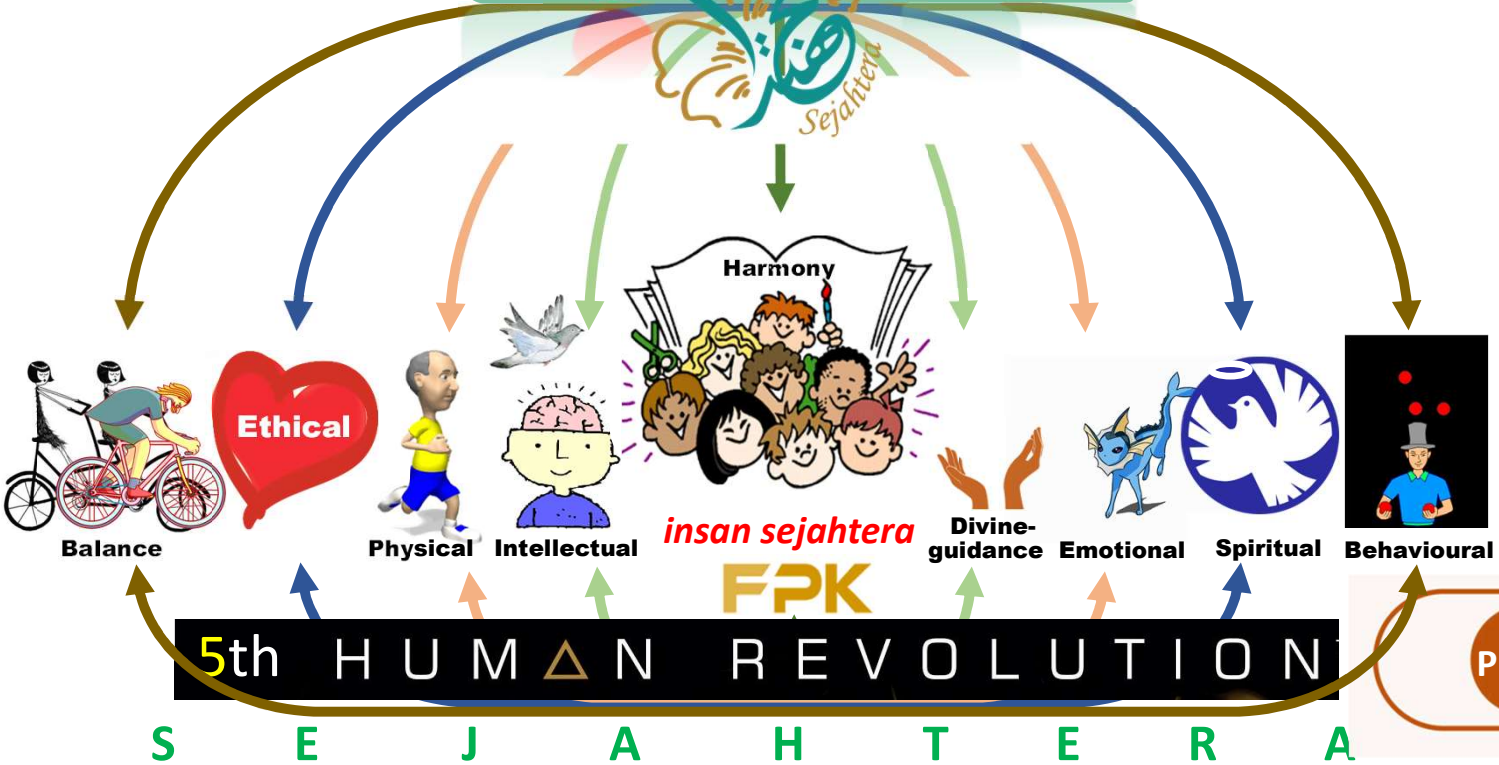

Daisaku Ikeda

A commitment to human rights cannot be fostered simply through the transmission of knowledge. Action and experience play a crucial role in the learning process.

Daisaku Ikeda

MATTER OF ACTION & EXPERIENCES

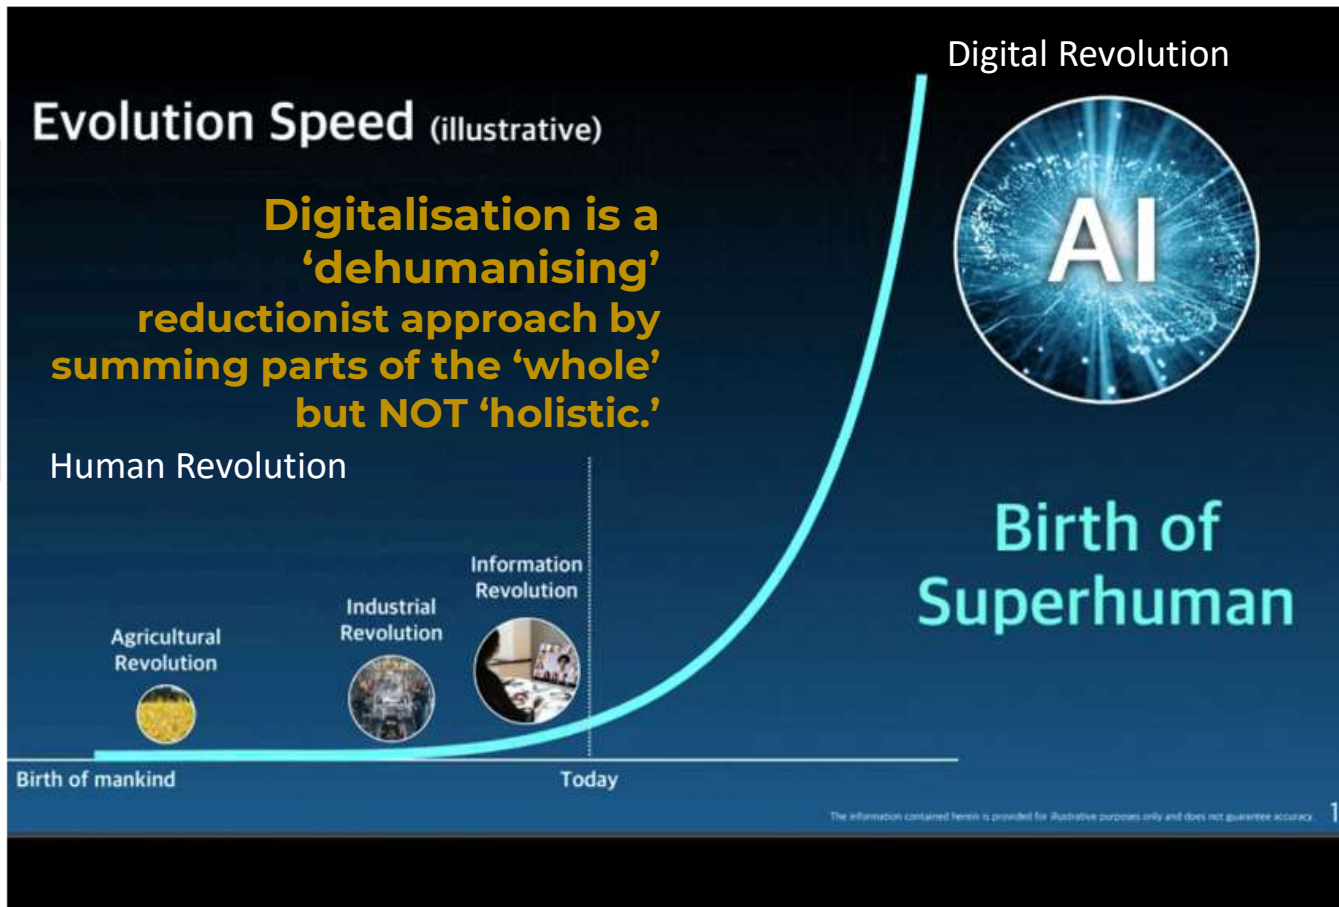

**“When we change,
the world changes.”**

The key to all change is in our inner transformation—a change of our hearts and minds. This is human revolution.

-Daisaku Ikeda

SEJAHTERA
SEJAHTERA

Being human is essentially about the state of being for the 'whole' human person, made of many parts.

5th Human Revolution is linked to the values of being human and well-being - NOT just the traditional techno-economics.

Digitalisation is a 'dehumanising' reductionist approach by summing parts of the 'whole' but
